

Dear Parents

We have been using the online maths learning program, Mathletics for just over a year. Your child has access to the Mathletics website at home and at school using their unique username and password.

We found that the children were really motivated to access the website and that their maths knowledge was improving as a result. Therefore we have decided to purchase the sister site Spellodrome, which uses the same log in details as mathletics. All children in Amethyst are on the Y3 spelling package, which I can tailor as they 'play'.

For homework I would like all children to access Spellodrome from home at least once this week.

If you have any questions or issues please let me know.

Miss Couling
