

Children, Parents & Teachers who have written to us about Magical Maths in the last year

Magical maths is good because we use maths is put into games and it isn't boring like normal maths.

Maths Magic is very fun and I have loved it! All the maths magic teams have been so lovely, funny and kind! I really like when the the team dressed up (as a magicians, a scientist and a detective) it was really funny, I have really enjoyed it!

Maths magic is the best maths club I have ever been to. It is fun, exciting and I have learnt a lot. I hope I could play for longer than 3 weeks and the people that do it are really nice and funny.

I loved maths because we did activities. I did the sea and I led the magicians. It is really fun!

The best thing is that the ball game we played was fantastic.

Magical maths is Emma great when we learn different tricks. (It confuses my parents!) Magical Maths is fun because we can fool our parents and its really funny.

I Loved when the Maths J-enius came

"Magical Maths has given us a fun, exciting and challenging after school maths club which has mystified and enthralled. Thank you to Magical Maths for bringing something different to our school"

Andrea Nichol, Head of Maths, Hallbrook Primary School, Broughton Astley, South Leicestershire

"I thought Magical Maths was absolutely excellent. One week our head, Mr Fitzwilliam, walked into my room saying 'my goodness, they're having fun in there', which I think sums it up. All the staff were very good as well; always turned up early and very professional."

Lisa Higgs, Head of Maths, Christ the King Primary School, Leicester.

"My son thoroughly enjoyed it! It says something if you can get children so excited about a subject like maths".

Mr Penton, Parent, Wigston, Waterleys Primary School.

"Ruby adores Magical Maths and we are very impressed with everything. She loves going and looks forward to it every week, so I can't praise you highly enough on the content of the classes and also the update emails are brilliant too. You are all doing brilliant work with the children".

Zoe Carmichael, Parent, Overchurch

Shhh! Magical Maths invite you to join our Secret club!

Dear Student,

Magical Maths is a 6 week club where you can meet some crazy and wonderful characters and learn some truly mind blowing maths tricks. You will learn how to calculate impossible numbers in your head, read minds, play maths sport and solve unbelievable puzzles...all with the power of maths. ★

Each week will have a fun theme – here is a special sneak peek at the first four weeks:

- Week One: Meet the Maths Genius
- Week Two: Become a Maths Detective
- Week Three: Become a Mathemagician
- Week Four: Olympic Mathematics

So come along and join in, it won't be the same without you.

From the Magical Maths Club

P.S. Act quickly, because our spaces are limited.

P.P.S. This is maths, but not as you know it...be prepared to have serious fun!

Signing up is super easy, just go to:

www.magicalmathsclub.com

Fill out the form and pay.

Your session dates are all published there.

You can also book on the phone by calling

01529 297150

Parents!!

The club is fun, exciting, fast paced and also highly educational (but don't tell the children). It is designed to boost your child's confidence

Visit www.magicalmathsclub.com

Or call 01529 297150

Sign up before the spaces run out!
