

Maths Week

During the week commencing Monday 6th March I will be opening the classroom to you from 9.30-10.30 so you are able to observe Year 1 maths lessons.

The aims of this week are so you are able to see how maths is taught in our school and to learn strategies to support your child with their maths learning at home.

For this week to work effectively, ideally there will be no more than 8 extra adults in our classroom at any one time. Please indicate which day you would like to attend and return the form before Thursday 9th February. I will send out slips on Friday 10th confirming places. Unfortunately, younger siblings cannot be accommodated for during these sessions.

In addition to your presence in the classroom I will also be inviting the governors along. This will give you a chance to meet the school's governing board and another opportunity for them to experience maths lessons in Year 1.

Thank-you,
Miss Davis and the Year 1 team

Please tick which sessions you are available to attend and indicate if 1 or 2 adults will be attending:

Monday 6 th March	
Tuesday 7 th March	
Wednesday 8 th March	
Thursday 9 th March
