All Individuals Matter

PSHE Intent Document

Intent

At Winchelsea Primary School we aim for all our pupils to be informed and engaged citizens of the United Kingdom. We want our children to develop as great communicators, who are confident to share their views and opinions. We aspire to ensure PSHE is at the core of everything we do. By doing so it allows our children to blossom into confident, independent, reflective and responsible members of the ever-changing society around them. We strive to ensure children are challenged intellectually, socially, spiritually and morally. We want our children to grow and develop in a safe and nurturing environment where they are able to express themselves articulately, gain a further understanding of themselves as unique people and build resilience. Winchelsea Primary School encourages children to develop their sense of self-worth by playing a positive role in contributing to school life and the wider community. In order to ensure that we met the expectations of the PSHE RSE curriculum we have adopted the Kapow scheme that encompasses all relevant areas of study. Our approach to teaching PSHE is intended to support and encourage all learners to be the very best they can be. PSHE is taught weekly as a stand alone session and then the core values are embedded throughout class, key stage and whole school assemblies.

Implement

Our whole school approach to PSHE and RSE is down to the belief that success in these areas will lead to excellence across the whole curriculum. At Winchelsea we deliver the PSHE curriculum through the use of the online scheme Kapow. The curriculum is split into 6 units, one for each half term in school. The curriculum equips our children with meaningful content that places an emphasis on building resilience, nurturing both mental and physical health and communication and language skills. The scheme is tailored by teachers to meet the specific needs of the children in our school. The use of the PSHE curriculum is intended to equip our children with the knowledge and skills to make self-informed decisions. Classes complete their learning in many different ways including the use of drama, circle time and some written activities. Evidence of these is gathered and then displayed within their portfolio books and shared with parents and the wider community through our successful Twitter pages.

Impact

Our teaching of PSHE will lead to children meeting the standards of attainments across the school and those that are expected of our children nationally. Children will each make progress relative to their own individual starting point. The implementation and impact of the PSHE curriculum is assessed across school to ensure that children are provided with the best possible chance at succeeding. We strive to ensure that by the end of their time with us at Winchelsea each child will:

- Recognise and apply British Values.
- Understand personal responsibility with regards economic well being.
- Recognise, understand and manage their emotions and understand who they can rely on and ask for support.
- Look after their own mental health and ask for support where necessary.
- Maintaining a healthy lifestyle.
- Recognise differences and have an understanding of diversity.
- Apply learnt skills in real life situations and demonstrate self-confidence and self-esteem.
- Have developed and maintained healthy relationships with peers and adults.
- Understand the physical aspects involved in the teaching of RSE.
- Show respect to themselves and others.
