

## Key Information: The PE and Sport Premium

What is the PE and Sport Premium?	The PE and Sport Premium is an additional layer of funding received by schools. It is ring-fenced so can only be spent on improving the quality and breadth of PE and School Sport.
How much does our school receive?	<p>There is a grant of £8,000 plus £5 per child on roll. We receive this each academic year until 2020. The grant comes from 3 government departments:</p> <ul style="list-style-type: none"> <li>• Education</li> <li>• Health</li> <li>• Culture, Media and Sport</li> </ul>
How is the Pupil Premium money spent?	<p>We have chosen to continue to work with the Outreach Team from Carre's Grammar School in Sleaford. Their network has over 20 schools engaged in regular PE and Sport activities. By working together we can; share best practice, collaborate on PE programmes, exchange high quality ideas and broaden local competition options.</p> <p>We do this by focusing work into 4 areas:</p> <ol style="list-style-type: none"> <li>1. High Quality PE. We invest in training courses and PE mentoring for our school staff.</li> <li>2. Competition. We release school staff from their timetable so they can take children to competitions, events and festivals. We also hire transport for large events.</li> <li>3. Health and Wellbeing. We aim to provide <u>every</u> child with a sporting opportunity every year. This could be a one-off taster event or a regular school-based club.</li> <li>4. Community. We work with local sports clubs so that our children can continue to lead healthy, active lifestyles beyond school hours. We also develop leadership skills so that our children will be confident in delivering activities to other children.</li> </ol>
What is the impact of Pupil Premium?	Each year we publish a report on our website. This tells our visitors how we have spent our grant and what the impact has been.
How will the impact be sustained?	School staff receive support and training to embed some of the new ideas in to their own delivery. New relationships are being created with local schools so that we can continue to work together. Children are signposted to community opportunities so they can continue to pursue any new-found interests.
How are the Governors involved?	The School Governors receive a report from the Headteacher which covers the above questions. Governors are invited to visit and monitor the impact of our premium.

Anticipated Spend 2016/17

PE and Sport Premium Budget 16/17

Winchelsea, Ruskington

DfE allocation £8,675
